

I spent in Philanthropy Connections Foundation a bit more than a month, but the amount of impressions and experience I received here accounts for at least a year.

Of course it is connected with the number of amazing projects one can be involved in. The Foundation works in partnership with several unique NGOs, such as boarding houses, a refugee camp, medical and educational organizations. Each of them is led by wonderful local people, who are experts in what they are doing and know perfectly what the needs are in this particular village or region. That is why one can be sure that all the efforts will bring results and the work becomes particularly meaningful.

Definitely people are the main reason making this organization unique: partners, employees, volunteers. Here one will find amazing people with fabulous stories. Another aspect is that it is a perfect chance to learn from specialists and contribute to real effective project. At the same time one can certainly find a way to apply own skills and knowledge, as there is always a lot to do.

For me working in PCF was valuable and pleasant experience, and I hope that many future volunteers will enjoy working here as well.
